SUMMARY OF THE REASONS FOR DECISION:

The computer printout entitled *Dadsgirl.txt* also known as *Dadsgirl.txt text file* and *Daddy's Little Girl* is classified as:
Objectionable.

This is because it promotes and supports the exploitation of children for sexual purposes. *Dadsgirl.txt* is a short, sexually explicit story about a 13 year old girl sexually seducing her 32 year old father. The girl poses seductively in a bikini and gets her father to rub suntan lotion on her. She moves her body and makes noises that suggest she is sexually aroused by his rubbing motion until her father relents and has unprotected vaginal intercourse with her ending in him ejaculating inside his daughter.

The child described is attributed with adult characteristics, an attitude, and knowledge with regard to sexual activity. The language used to describe the sexual activity and body parts such as genitals is colloquial, offensive, and salacious.

The publication, by its use of a child character, and the sexual language and activities attributed to her, seeks to legitimise children's engagement in sexual activity with adults. The publication also seeks to promote such activity as socially normal and acceptable.

The exploitation of children is a section 3(2) criteria of the Films, Videos, and Publications Classification Act 1993. *Dadsgirl.txt* promotes and supports this s3(2) criteria. Section 3(2) criteria are inconsistent with and override s14 of the New Zealand Bill of Rights Act 1990 (NZBR Act) which allows for "the freedom to seek, receive, and impart information and opinions of any kind in any form." Therefore s14 of the NZBR Act cannot apply to this computer printout.
